Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Arguments

Applicant's arguments, see page 10, filed November 13, 2006, with respect to the rejection(s) of claim(s) 1-6 and 8-13 under 35 U.S.C 102(b) and 103(a) fully considered and are persuasive. However, claims 1-6 and 8-13 still stand rejected under 35 U.S.C. 112 1st paragraph. Furthermore, claim 14 is rejected under Fain et al. as described below.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claim 1-6 and 8-13 stand rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 1 and 12, include a "flange", which is the chosen terminology used to describe the key protrusion. This recitation of flange to represent the key shaped protrusion is not supported by the original specification.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claim 12 is rejected under 35 U.S.C. 102(b) as being anticipated by Fain et al. (US 5,679,026). Fain et al. discloses a header adapter for an implantable medical device. As depicted in figure 1, the IMD, device 10, includes a header 18. The connector header has a bore with an inner surface. The adapter 40, is an insulated adapter with a proximal and distal end. The lumen(s) disposed within this adapter are best seen in figure 4. Fain et al. discloses in col. 9, lines 14-21, the intended insertion of pacing/sensing leads, but does not depict them in figure 1. As further seen in figure 1, the examiner considers the external portion of connector ports 42 and 46 to be connector rings. Furthermore, the examiner considers the set screws, that engage set screw cavities 60 and 62, depicted in figure 1, to be an electrical contact key.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
